CBT Installation Guide

Thank you for choosing Scholarium CBT. This guide walks you through installing the application on your exam computer. Please follow the two steps below in order.

Step 1: Install the Security Certificate

Secure the connection. Establish trust.

Install the security certificate to ensure a safe and reliable experience with Scholarium CBT.

Step 1: Install the Security Certificate

Before installing the app, you must install our security certificate. This tells Windows that Scholarium CBT is a trusted application from Twenty97 IT Services.

1. Open the setup folder and double-click the file named "1. Install This Certificate First".
2. A Windows security prompt will appear. This is normal and expected.
3. When asked where to place the certificate, choose "Trusted Root Certification Authorities".
4. Click Yes or OK to confirm. You only need to do this once per computer.

Note: The security prompt is expected. Clicking Yes is safe. It allows Windows to recognise Scholarium CBT as our verified app.

STEP 2:

Install Scholarium CBT

Scholarium CBT, by Twenty97 IT Services

Step 2: Install Scholarium CBT

1. In the same folder, double-click "2. Install Scholarium CBT".
2. Windows will now show the publisher as "Twenty97 IT Services", with no warning.
3. Follow the on-screen prompts to finish installing.
4. Launch Scholarium CBT from your desktop or Start menu.
